

Medicine Policy

We are able to administer prescribed medication. It must be labelled with the child's name and dosage as stated by the pharmacy. We will require a permission slip to do this.

If your child has acute allergies or needs an epipen please discuss the matter with us as there are strict procedures regarding allergens and the storing of devices and care plans, please see separate policy, also in some cases staff may require specialist training.

We will record all medicines administered and ask you to sign at the end of the day.

We are committed to ensuring that my Medicine policy is a living document which is reviewed and updated at least annually.
